OBJECTIVE

As a MERN Stack and Next.js developer with 9 months of hands-on experience, I am seeking a challenging position to leverage my skills in building dynamic and responsive web applications. My goal is to contribute to innovative projects, enhance user experience, and continue growing my technical expertise within a forward-thinking company.

EXPERIENCE

01-07-2023 - 30-09-2023

- **Mern Stack Developer**

Techustaads pro learning

At Techustaads, during the specified period, I completed MERN Stack training and developed a group project called "To-Do List." We utilized Git for version control, using push and pull commands to integrate the project.

01-01-2024 - Present

- **Full Stack Developer**

Vervali System

During my tenure at Vervali Systems, I worked on a project called "Make It Easy," an HR management system. I implemented various modules such as OAuth2, Nodemailer for scheduling interviews, a complaint form model, a SOS sign-in with Google model, JWT tokens, and more. I was also responsible for resolving bugs reported by QA in the bug sheet.

EDUCATION

2017

- **University of Mumbai**

12th

62%

2019-2023

- **Vidyavardhini College of Engineering And Technology**

Bachelor of Engineering in Information Technology

68%

SKILLS

- Technologies, language and framework:- HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, Material UI, Reactjs , Nextjs , MongoDB, Postman, Nodejs, ExpressJs, Vs-code, Github

PROJECTS

- **E-commerce (Mern Stack)**

I developed a comprehensive e-commerce website for a toy store utilizing the MERN Stack. This involved creating a robust and user-friendly platform that included features such as product listings, a shopping cart. The project leveraged MongoDB for the database, Express.js and Node.js for the backend, and React for the frontend to ensure a seamless user experience.

- **E-commerce (Next.Js)**

I developed an e-commerce website for selling football jerseys using Next.js. In this project, I implemented JWT tokens for user authentication and used Nodemailer to send purchase confirmation emails to users, including the total price of their order.

- **Student Management System**

In a student management system built using the MERN Stack, I utilized the ApexCharts library to display data. This project included features for updating student marks and visualizing them effectively.

INTERESTS

- I enjoy playing cricket and, in my free time, analyzing cricket matches. I also like to analyze football games. My favorite players are Lionel Messi and Rohit Sharma, and my favorite clubs are Mumbai Indians and FC Barcelona.

LANGUAGES

- English, Marathi, Hindi
